BERGER is the alias of César Berger, a DJ, musician and producer from Buenos Aires. With **over 25 years of experience** in electronic music, he is an active and constantly evolving artist within the local and Latin American underground scene.

His sonic identity moves through different shades of **Techno, House, Dub, Acid, Minimal and Electro**, fusing hypnotic grooves, deep textures and a constant search for fresh, cutting-edge sounds.

He is the creator, curator and resident DJ of **MINELEK**, a party series born in **2007** and regarded as one of the most emblematic and longest-running gatherings in the Buenos Aires electronic scene. Over the years the project has hosted hundreds of national and international artists, establishing itself as a landmark of underground culture — with an international extension in Japan (@minelek_jp).

He has played some of the most important booths and clubs in **Argentina and Latin America**, sharing his musical vision with audiences across different cities and scenes.
