Leading names of the ARG underground since 2013

01 - BACKGROUND

- Shared decks with Urban Groovee, Diego Cid, Jam On

→ El Quinto Sueño, Under Club and self-run series

VILALOBOS started out in **2013 at SÓNICA**, went deeper into production in **2015 at ARJAUS** and never stopped.

A selector schooled in the old school of digital vinyl and the long haul — Tech House as the foundation, crossing hypnotic Progressive House, groove-driven Deep House and mental Techno, without falling for the easy peak.

He has shared decks with the forerunners of Argentine electronic music: **Urban Groovee (LA), Diego Cid, Jam On, Eduardo Criado, Magoo**. Plus Paul Deep, Camila Díaz, Berger Muzik, Udolph, May Mc Laren and dozens of up-and-coming DJs who are now names of the underground.

Clubs & event series — El Quinto Sueño, Under Club, self-run series, private and open-air parties.

Style — Sets from 2 hours up to 6 hours (extended sets), slow build, constant groove.
